Hiring Manager,
ONTARIO HIV TREATMENT NETWORK,
1300 Yonge street, Toronto, ON.

Dear Hiring Manager,

Please accept my resume as a **Data Engineer** at ONTARIO HIV TREATMENT NETWORK as advertised on Indeed.

Database design and Performance tuning intertwine seamlessly in my world. My fascination with Data burgeoned during my undergraduate years, nurtured by a professor who had a knack for posing perplexing puzzles. These challenges weren't just exercises, they were gateways to deeper understanding and unyielding curiosity, propelling me towards the field I now call home.

As I delved deeper, I found myself at the intersection of Querying and technology, where applying optimization techniques to joins became my daily bread. Data became my canvas, and coding, my brush, as I crafted algorithms to extract meaning from the numbers. Thus, my love affair with SQL and technology evolved into a pursuit of data exploration, both in code and in the tools that empower it.

In interest of my coding and job pursuit of I have gone through your job posting and got to know that it fits me in every aspect. This opportunity would bring a new experience to my work culture.

I would appreciate the opportunity to meet with you to discuss how my skills fit with your requirements. Please feel free to contact me at your earliest convenience.

Thank you for your time and consideration. I look forward to hearing from you soon.

Sincerely,

Nagasai Velpuri
